BEST FACE FORWARD

For brighter and softer skin, head to Erabelle for its Japanese Sake Facial (\$260 for 90 minutes), a deluxe treatment that taps on the brew's antibacterial, antioxidant and moisturising properties. Derived from a fermentation of rice, water, yeast and Koji mould, it helps eliminate toxins, inhibits melanin production, restores hydration and purifies skin for a healthy and radiant complexion. To revive dull and tired skin at home, check out Erabelle Skin Treatment Masks (\$60 for a pack of three, \$100 for a pack of five). Designed to fit your facial contours for maximum coverage, each sheet contains polypeptides to protect skin against pollutants and prevent water loss, as well as hyaluronic acid to up moisture levels.
